

ATEX: FROM HAZARD TO PROTECTION

One day of expert insight into explosion safety and compliance

TUESDAY
10TH NOVEMBER

HILTON DOUBLE TREE
STOKE-ON-TRENT

DELEGATE FEE
£275+VAT

ONE DAY. MULTIPLE EXPERTS. PRACTICAL ATEX KNOWLEDGE.

Join SHAPA for a focused day of expert presentations, real-world experience and practical guidance on managing explosion risks in solids handling and processing environments.

- **Understand your responsibilities.**
What you need to know, what you need to do, and how to discharge your ATEX responsibilities effectively.
- **Where does ATEX get difficult?**
Explore the practical challenges of turning regulation into safe, compliant decisions about equipment, zoning, maintenance and day-to-day operations.
- **Learn from real-world experience.**
Hear directly from industry specialists about the challenges, decisions and lessons that matter in everyday operations.
- **Take practical knowledge back to your workplace.**
Strengthen your understanding, ask questions and gain insights that can support safer, more effective decision-making.

EXPERT SPEAKERS & INDUSTRY INSIGHTS:

ATEX Explosion Hazards
Installation & Maintenance Lessons

John Pethullis – Southdowne Solutions
ATEX – Areas of Contention

Fike
Flameless Explosion Venting & Dust Retention

Wolfson Centre for Bulk Handling Technology
